POSI-CLEAR™ RP

CARTRIDGE FILTER

The most efficient single-cartridge filter system ever.

The Posi-Clear RP Filter gives you everything you could ask for in a filter. This design is nearly 50% more efficient than any other single-cartridge filter on the market. At the same time, it delivers top-of-the-line cartridge performance to keep your pool sparkling clear. And cleaning is a breeze—its quick-connect ring makes maintenance a cinch—just open the top, remove the cartridge, hose it off and the Posi-Clear RP Filter is ready to go again.

The Posi-Clear RP Filter has a side-entry port to optimize flow and energy efficiency. And inside, we've maximized the cartridge surface consistency to block and trap particles as small as 20 microns (an average grain of beach sand is 1,000 microns!).

POSI-CLEAR™ RP CARTRIDGE FILTER

Efficient and carefree...by design.

The Posi-Clear RP Filter's side-entry design optimizes flow for greater energy efficiency. It features an easily cleaned cartridge for the ultimate in carefree pool filtration. The fiberglass-reinforced tank halves are secured with an innovative locking ring. Just loosen the ring and remove the top half for easy cartridge access and rinsing. Filter maintenance doesn't get any easier.

KEY FEATURES

Single-piece base and tank
Constructed of fiberglass-reinforced polypropylene for strength, chemical resistance and maximum durability.

Unmatched hydraulic efficiency
Nearly 50% more energy efficient than other single-cartridge filters.

Easy to remove and rinse cartridge

Quick-connect union with diamond seal
Assures easy installation and servicing.

High Flow™ Manual Air Relief Valve
Relief valve with continuous internal air relief work together to maintain optimum filtration efficiency at all times.

1-1/2" drain cap and washout
For quick and convenient maintenance and winterization.

Innovative lock ring
Requires only an easy half of a revolution for a leak-proof seal.

Easy access 1-1/2" drain

Low-force locking ring
Opens and closes easily for quick access to cartridge.

2" x 2-1/2" plumbing
For maximum flow; side entry maximizes energy efficiency.
