FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**IN CASE OF EMERGENCY CALL:
1-800-255-3924**

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL:

Keep this product dry and tightly closed in original container. Store in a cool, dry, well-ventilated place. Do not store with chlorine, bromine or liquid acids. Do not reuse empty container. Triple rinse, then offer for recycling, or dispose in accordance with state and local regulations.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

NET WT 1 LB (453.5 g)

This product is a nonhalogenated (contains no chlorine or bromine) oxidizing agent to be used for "Non-Chlorine shock oxidizing treatment" only. The regular use of this product will oxidize most of the nitrogenous compounds that accumulate in the swimming pool or spa water, reducing the demand on the sanitizer used for disinfection. **This product is not a sanitizer. For routine disinfection of pool or spa water, use an EPA registered disinfectant according to its label directions.** This product is compatible with brominated and chlorinated disinfection systems. Read entire label and use strictly in accordance with precautionary statements and directions.

DIRECTIONS FOR POOL USE:

Initial treatment: Use this product at the rate of two pounds (2 lb.) per 10,000 gallons of pool water.

Regular treatment: Use at the rate of one pound (1 lb.) per 10,000 gallons of pool water every week. When the water temperature is above 86°F (30°C) or when the pool is subjected to heavy use, the treatment (1 lb. per 10,000 gallons) should be made twice weekly.

DIRECTIONS FOR APPLICATION:

1. Broadcast the required amount of this product directly into the deep end of the pool with the filtration system running.
2. Apply in the morning or evening when no bathers are in the water. Swimming or bathing may be resumed in 15 minutes.
3. Maintain pH in the range of 7.2 to 7.6, total alkalinity in the range of 100 parts per million (ppm) to 150 ppm, and calcium hardness in the range of 150 ppm to 300 ppm.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER:

Corrosive. Causes skin and eye damage. May be harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Use only in swimming pools. Add only when no bathers are present.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT.

Never add water to product. Always add product to large quantities of water, using clean, dry utensils. Do not mix with other chemicals. Do not add this product to any chemical feeder. Do not add this product to any dispensing device containing remnants of any other product. Contamination with moisture, organic matter or other chemicals may cause a violent reaction leading to fire or liberation of hazardous gases. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large amounts of water.
