

POOL SEASON[®]

ALKALINITY UP

When Alkalinity Tests Low, Proper Addition of **ALKALINITY UP** Will:

- Raise Total Alkalinity in Water to Recommended Level
- Contribute to Optimal Sanitizer Performance
- Protect Pool Surfaces from Staining and Corrosion
- Help Prevent pH Fluctuation

Active Ingredient:
Sodium hydrogen carbonate 100.0%

KEEP OUT OF REACH OF CHILDREN
CAUTION: Eye irritant. Avoid contact with eyes, add only into water
See first aid and additional precautions on back panel
NET WT 25 LBS (11.3 kg)

This product is used to raise total alkalinity in swimming pool water. Low total alkalinity may cause pool water to be corrosive to metal and plaster and may result in staining, etching or distorting of all types of pool surfaces. Proper alkalinity helps to prevent these problems and also eliminates "pH bounce" by buffering the water against large pH changes. Total alkalinity in pool water should be maintained in the range of 80-125 ppm for plaster finishes and 125-150 for vinyl, fiberglass and other non-masonry finishes.

DIRECTIONS FOR USE

Add directly to pool water with pump and filter running. 1 1/2 lbs. of ALKALINITY UP per 10,000 gallons of water will raise total alkalinity 10 parts per million. Refer to additional chart below to determine amount needed to correctly balance pool water.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area. Do not reuse container, but place in trash collection. **HAZARD WARNINGS: CAUTION:** Avoid contact with eyes. Wear safety glasses when handling this product. Avoid breathing dust. Do not mix with other chemicals.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ADDITION CHART POUNDS OF ALKALINITY UP REQUIRED

CAPACITY (Gallons)	TO RAISE TOTAL ALKALINITY					
	30 ppm	40 ppm	50 ppm	60 ppm	80 ppm	100 ppm
10,000	4	6	7	9	12	15
15,000	6	9	11	13	18	22
20,000	9	12	15	18	24	30
25,000	11	15	19	22	30	37
30,000	13	18	22	27	36	45
40,000	18	24	30	36	48	60
50,000	22	30	37	45	60	75

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
